About Us

Transforming Commercial Vehicles for Over 37 Years.

A team of 38, our mission has always been to create innovative, stylish and practical Ute Trays that cannot be beaten on quality. We have a huge range of Tray Build Options and Optional Extras to choose from and each tray is built specifically to suit every customer's needs. We manufacture our trays right here in Australia, from Australian made materials, for Australian conditions.

Our state-of-the-art design, manufacturing, and fitting facilities allow us to handle large volumes with a fast turnaround. Our innovative solutions, quality products and outstanding customer service all contribute to our reputation as the number-one choice for tradespeople, councils, government, dealerships and fleet buyers around Australia. Quality is in our DNA.

Fleet Operators

Whether you're looking for simple, heavy-duty trays for your commercial fleet vehicles, or complex fit-outs with industry-specific needs and compliances, we have the expertise to help. From in-house design to manufacture. We have an extensive range of optional extras and can produce high volumes when needed.

Dealerships

We have over 37 year's of experience providing dealerships with complete solutions for their client's commercial vehicles. We offer first-class service, fast turnarounds and our strong corporate partnerships allow us to have the right trays available whenever new vehicles are released.

Our Clients Tradesmen

A tradesman's Ute is their mobile workstation. That's why we build our trays made to order and vehicle-specific, not a universal one-size-fits-all, so that your tray perfectly suits your individual needs and budget. Our unbeatable service and huge range of tray build options will help you get the best out of your vehicle.

Australian Made

Aussie Made and Owned for Over 37 Years.

Step 1
Bauxite Ore is Mined Here
in Australia

Step 2
Bauxite is Refined to
Produce Raw Aluminium

Step 3
Aluminium is Extruded to
Our Own Profiles

Step 4
Our Factories Process the
Extrusions Into Individual
Components

Step 5
Each Tray is Built Made-to-
Order for the Vehicle

Step 6
Tray is fitted to vehicle and
ready for hand over

*"We have been
Australian Made and
Owned ever since our
first tray in 1986. We
design, engineer and
build our trays locally,
using only the best
Aussie materials and
workmanship."*

TIP TOP EQUIPMENT

A NEW ERA OF UTE TRAYS

No Ordinary Tray, for no Ordinary Person! Our Xtreme Tray is engineered for the discerning buyer out to impress and turn heads in their premium custom built rig. You can personalise your vehicle to suit your lifestyle whether you are camping, touring or working. However, this state of the art Alloy Tray design is already packed with standard inclusions and built for Australian conditions. With so much included in our standard package, The Xtreme Tray is the King of the Road!

Colour Coded

We use a combination of powder coating and 2-pac colour painting on accessories. Your tray is colour coded with an Exact Vehicle Match.

Quality

By using highest-grade materials with advanced manufacturing techniques we guarantee our trays are the strongest and best looking in the country.

Our Heavy-Duty Hydraulic Tippers are built as one unit with the tray, and built specifically for each Ute. Only suitable with new Tray builds.

This means we can offer different tailgate swing options, and you can add Optional Extras such as Dropside Height Variations, Dropside Lining, Sloped Rear Combing, Heavy-Duty Smooth Floor, or a Tonneau Cover.

TIPPER TRAY

Customise your Tipper to suit your needs with our range of optional extras.

1

Smooth Flooring

Expels materials when tipping. Recommended for tippers, heavy and high-impact loads

2

Slope Rear Combing

For easy clean out.

3

Dropside Height Variation

Dropsides can be increased by 75mmH increments, up to 600mmH

4

Dropside Lining

Protecting your vehicle from scratches and damage

5

Retractable Tarp

Lightweight and compact design with proven durability

6

Underbody Rope Box

Available in 750mmL or 575mmL and can be fit to the left or right side of the tray.

7

Side Steps

Provide ease of access to a high-lift vehicle.

8

Work Lights
